

We assist you in setting up new companies and perform your back office processes in the field of finance and tax

Back Office Outsourcing

We assist you in managing regulatory and technical requirements and in optimising your processes.

We help you with challenges potentially arising from a lack of skilled staff, inefficient processes or complex compliance requirements.

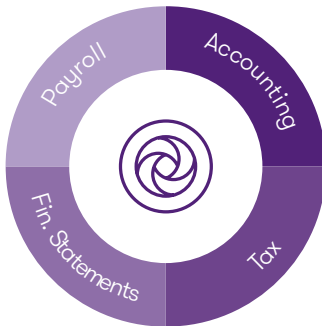

We eliminate your liability risks, create transparency and reduce internal management time spent on support processes in the field of finance and tax.

We work with you to develop structures that allow you to focus on your core competencies.

Our services include **financial accounting, payroll accounting, HR services, reporting/preparation of financial statements** as well as **tax compliance services** for domestic SMEs and for local subsidiaries of international organisations.

We help you set up your companies in Germany

- Organising official registrations
- Setting up targeted, efficient back office processes based on your needs
- Project support, e.g. for digital transformation (e.g. process design for ERP systems)
- Advice on tax obligations and legal requirements (in the long-term and during the start-up phase)

If required, we can assume control of individual processes or all back office functions for you

- High-volume processes such as financial accounting and payroll accounting
- Reporting as required by law, such as filing your tax returns or your annual financial statements
- Communication with authorities/tax advice
- Group and management reporting

We go beyond business as usual, so you can too

- Long-term client relationships based on trust
- A single contact person for the entire duration of the contract
- Conscientiousness & high-quality standards
- Globally standardised best practice processes
- Broad range of services & and a large number of specialists
- All-round carefree package: We assume control and responsibility
