

We are your professional partner for all national and international aspects of your financial and tax management

Business Process Solutions

If you are concerned about quality deficiencies, excessive expenses for accounting and compliance processes, and increased liability risks due to:

- Difficulties in finding and retaining suitable professional staff,
- Capacity bottlenecks in the finance department, especially if the company is growing rapidly, issues are complex or coordination is inefficient, leading to errors and alignment efforts,
- Ever changing regulatory/technical requirements and lack of transparency in complying with them at home and abroad

We have the right solution for you:

For our national and multinational clients who want to ensure increased quality and at the same time full flexibility for their companies, our **Business Process Solutions (BPS)** provide professional solutions at a fair fee. In future you only need one service provider to perform the tedious standard processes so your team can concentrate on adding value.

What makes us special

- A transparent and flexible service model: our services can be purchased individually or as a package, whether individual tax returns or payroll accounting or complete back office solutions.
- Process excellence together with the knowledge and experience of an auditing and tax firm
- Experts with industry knowledge who draw on a range of proven methods, the latest (IT) tools and target-oriented processes who can also work for you across business areas on complex issues.
- Long-term, trusting relationships with stable contact persons for the entire duration of the contract
- Access to the worldwide Grant Thornton network to ensure that the requirements of your international companies can also be addressed from a single source.
